A wide-angle landscape photograph showing a mountain range. The foreground and middle ground are dominated by a large, snow-covered slope that has been eroded into distinct, horizontal layers, resembling a giant quarry or a natural geological formation. The snow is white and textured, with some darker patches and small pools of water. To the left, a strip of brown, rocky earth runs along the edge of the snow. In the background, more mountain peaks are visible, some with patches of snow, under a sky filled with large, white and grey clouds. The overall scene is one of natural grandeur and geological complexity.

**EREKAZ TILES** is a tribute to the timeless beauty found deep within the Carrara quarries of Italy. Inspired by the very heart of Carrara, each satuario piece echoes the rich history and natural wonders of this renowned region. Just as the artisans of Carrara have sculpted their masterpieces from these marble quarries for centuries, **EREKAZ TILES** brings that same artistry into your living spaces. **EREKAZ TILES** evoke the serene beauty of Carrara's landscapes, inviting you to embrace the luxury and history of Italy in your home.
